

FHUK Toolbar - Get it!

Hi to all our FHUK community members,

We have just added our latest community addition - the FHUK Toolbar, which you can download and add to your browser (IE or Firefox).

This will allow you to be in touch with the site, without being actually here!

The FHUK Toolbar will have direct links to all the important parts of the Family History UK website and has RSS feeds from the main FHUK site plus the Community forum and the Family Trees. Well good! We are also adding a Live Chat facility so we can chat for real. Not forgetting it has a full search facility also. More gadgets will be added soon.

Get it now - you know it makes sense!
